

Avocette brings the power of Sage to the Public Sector

sage

Enterprise
Management

With 40 years of professional services expertise, Avocette knows the public sector. With 35 years of enabling businesses to grow globally, Sage knows enterprise resource planning (ERP). It's a perfect partnership to help local governments and other public sector organizations thrive in the face of rapid growth by transforming how processes, people and operations are managed.

Sage Business Cloud Enterprise Management provides faster, more intuitive and personalized solutions

than conventional ERP for public sector organizations looking to engage citizens, deliver world-class services and remain accountable by increasing agility and responsiveness. Avocette is a Gold Partner ready to help your organization get the most out of Sage Business Cloud Enterprise Management.

Embrace Effective Organizational Change Solution Benefits

Local government and public sector organizations want to deliver the best possible services to agencies and citizens while maintaining fiscal responsibility. Avocette and Sage's Business Cloud Enterprise Management solution provides the ability to drive innovation, streamline processes, and transform your organization's ability to respond to change.

Gain faster business insight

Tailor your experience

Intuitively manage operations

Generate industry leading ROI

Gain faster business insight

Increase customer satisfaction and remove administrative burden with faster, more flexible and more efficient processes powered by data

- Generate insight across your organization by reducing data redundancy for reliable and consistent analytical reporting
- Give your team personalized information with access to live dashboards customized for specific department roles to monitor performance and alert them to abnormalities
- Create customizable scoreboards for individual roles; navigate up and down the audit trail to manage risks
- Distribute consistent reports across the organization, trigger alerts and workflows based on KPIs; enable decision support collaboration
- Stay compliant with local data regulations

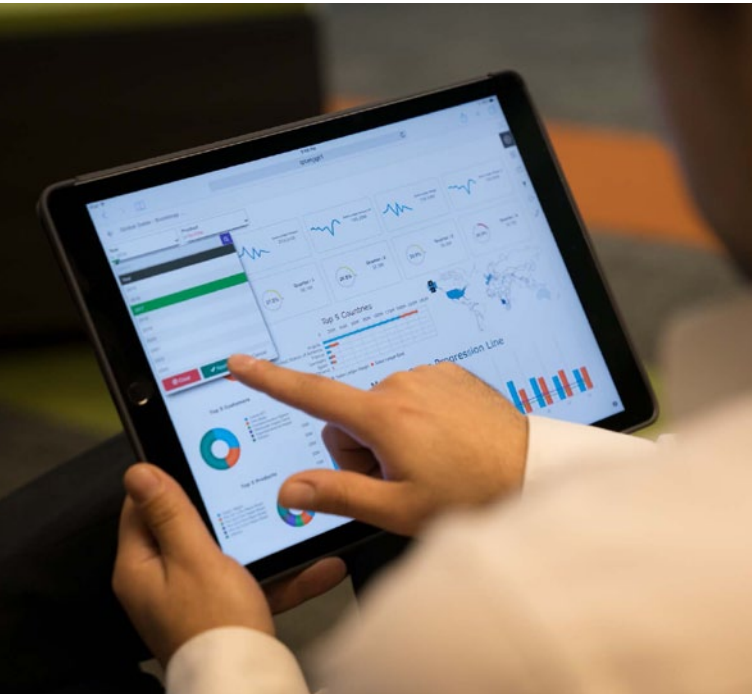

Tailor your experience

Enable your team to work smarter and more efficiently with a modular and flexible system that will grow

- Configure your solution to support your organization's specific processes
- Create personalized user experiences for your team using powerful configuration capabilities
- Build a custom solution by accessing specialty applications built by Sage and Avocette's vibrant partner ecosystem and develop new applications using industry-leading development tools
- Choose to run your solution in the cloud, on your partner's data center or on your own infrastructure

Intuitively manage operations

Stay agile in the face of growing complexity using an end-to-end solution to manage your operations and people

- Streamline core processes to accelerate the management of business across financials, procurement, sales, and customer service
- Reduce business complexity using easy-to-use applications that are tailored to your specific public sector organization's needs
- Drive continuous improvements with quality management non-conformance and non compliance capabilities allowing you to identify issues, reduce costs and improve citizen experiences
- Improve cost management and gain better control of project profitability
- Quickly adapt procedures to changing regulations and compliance requirements
- Stay productive from anywhere with intuitive mobile applications

Generate industry leading ROI

Achieve 177% ROI with a 5 month payback period¹

- Reduce administrative burdens by automating key accounting and finance tasks such as processing orders, invoicing, and managing journals
- Spend more time focusing on new services and driving out inefficiencies
- Operate efficiently with a global partner network and services team offering world-class support

¹Forrester 2016 total economic impact analysis of Enterprise Management points to risk-adjusted benefits of \$1,722,180 over three years versus implementation and operating costs of \$620,870, equating to a net present value (NPV) of \$1,101,310 for a Sage cloud subscription. The risk-adjusted ROI was a very favorable 177%, and the payback period was a quick five months on average for Enterprise Management customers participating in the research.
